

CAT Verbal Ability Syllabus 2023

Candidates should prioritize the following topics from the CAT subjects in order to score more in the Verbal Ability section.

- Reading Comprehension, Vocabulary, Grammar
- Close passage, Synonyms, and Antonyms
- Critical Reasoning (and its numerous applications)
- Idioms, Analogies, Para Completion, Fill in the blanks
- Sentence Correction, Summary Questions, Jumbled Paragraph
- Fact Interference Judgement, Meaning, and Usage Match
- Error corrections
- Para-jumbles
- Sentence completion
- Vocabulary-based questions

CAT Verbal Ability Syllabus Weightage 2023

The weightage given to different sections of the CAT syllabus 2023 is illustrated below. We have curated a table that consists of the name of each topic of the CAT Verbal Ability syllabus and the expected number of questions from each one of those topics. Aspiring candidates can utilize the table to prioritize the topics while preparing for the CAT 2023 exam.

CAT Syllabus VARC Topics	Number of questions
Sequence of sentences	1-2 Questions
Meaning of the phrase	2-3 Questions
Inferences, Statements, Arguments	4-5 Questions
Irrelevant Statements	1-2 Questions
Synonyms-antonyms	2-3 Questions
Analogies	1-2 Questions
Completion of Paragraph	1-2 Questions
Error Correction in Sentences	1-2 Questions
Author's assumption	2-3 Questions

Jumbled paragraphs	1-2 Questions
Vocabulary usage	2-3 Questions
Main idea in the RC Passage	2-3 Questions
Pick Out of Context Sentence	1-2 Questions
Critical Reasoning	1-2 Questions
Sentence Completion	1-2 Questions
Fill in the blanks	1-2 Questions
Para Summary	3-4 Questions

CAT Syllabus for Reading Comprehension 2023

In the **Reading Comprehension** section, the candidates will be answering several MCQs. The candidates will have to read about 3 to 4 long comprehensions, along with 2-3 short ones. The length of the long passages will be around 900 words. The short passages will be around 600 words long. The topics will revolve around Politics, Literature, Science, History, Environment, Mythology, etc. In the VARC section, the Reading Comprehension section will occupy a weightage of about 70%.

- Reading Comprehension paragraphs will be around 900 words and shorter paragraphs will have about 600 words. Candidates will have to read the paragraph and answer the questions asked at the end.
- The CAT 2023 syllabus for current affairs includes the topics like the Current affairs of National and International importance, Impact of Covid 19 pandemic on social life, Government Policies, Immigration, New Education Policy, CAA, Triple Talaq, Make in India, Clean India.
- The CAT 2023 Syllabus for Economy includes topics like the Global Economic changes, Economic Development and Environment destruction, Demonetization, Unnecessary expenditure by the Government.
- The CAT 2023 Syllabus for Literature includes work from great philosophers like Aristotle, Charles Dickenson, Winston Churchill, Martin Luther King, Mohan Das Karam Chand Gandhi, and others.
- The CAT 2023 Syllabus for Science and Technology includes topics about the Modern world, the Advancement of Technology, and the fading of culture.
- The CAT 2023 Syllabus for History includes topics about the social changes in the History of India, War of Roses, French Revolution, Freedom Fights among others.
- The CAT 2023 Syllabus for Mythology includes topics about the important mythological, current social structure, and abstract fictional topics as well.

CAT Logical Reasoning Syllabus 2023

It is reported that a majority of the candidates find it easiest to score in the Logical Reasoning section. The section contains puzzles, problems, and questions which test a candidate's mental ability. We have curated a list of important topics from the CAT Syllabus 2023 in order to help candidates score more.

- Direction Sense
- Puzzles
- Series
- Clocks and Calendars
- Data Structures
- Blood Relations
- Arrangements
- Coding-Decoding
- Syllogism
- Logical Connectivity

CAT Data Interpretation Syllabus 2023

In the data interpretation section of the CAT Syllabus, questions are designed to analyze a candidate's ability to extract information from a given set of data, which can be in any form, i.e., Bar graph, pie chart, line graph, etc., is tested. There are different types of charts and graphs which are used to frame Data Interpretation questions. Aspiring Candidates must be thorough with all these questions from the CAT Syllabus in order to perform well in the CAT 2023 Exam.

- Tables
- Pie charts
- Line graphs
- Bar graphs
- Clock
- Cubes
- Venn Diagram
- Data Sufficiency
- Seating Arrangement
- Binary Logic
- Caselets
- Calendars
- Number and Letter Series
- The combination of Graphs.

CAT Quantitative Aptitude Syllabus 2023

Quantitative Aptitude is a vital part of the CAT Maths syllabus. It has mainly questions from Arithmetic, Algebra, Trigonometry, Calculus, Geometry. Questions in this section are given to test a candidate's ability to apply mathematical principles to solve real-time problems. Questions will be based on 10th and 12th Mathematics. The quant section of the CAT Syllabus previously had 32-34 questions weightage, but this year it is expected to be 22-24 questions only. The Quant syllabus is an important part of the CAT Maths Syllabus. The topics which have to be concentrated from the CAT 2023 Syllabus are provided below.

- Arithmetic- Number System, HCF, LCM, Ratio & Proportion, Simplification, Percentage, Average, Age Calculation, Time & Work, Distances, Profit, Loss, and Discount.
- CAT Algebra Syllabus- Hypothesis of Equations, Quadratic Equation, Permutation, and Combination, Sequence and Series, Linear Equation.
- Percentages- Percentages and its applications
- Trigonometry- Trigonometric Ratios, Heights, and Distances.
- Calculus- Minima and Maxima functions.
- Mensuration-Areas and Volumes – Rectangles, Squares, Triangles, Circles, Cubes, Cones, Spheres, Pipes, and Cistern.
- Geometry and its applications- Angles, Lines, Triangles, Circles, Coordinate Geometry.
- Ratio and its applications, Numbers and its applications, Simple and Compound Interest
- Inequalities, Probability, Mensuration, Mixtures and Allegations, Set theory and Function.

CAT Quantitative Aptitude Syllabus Weightage 2023

In order to score well in the CAT Quantitative Aptitude, candidates need to practise more number of questions. By doing that the candidates will be able to solve questions accurately in less amount of time. We have curated a table with the expected number of questions from each topic in the Quant section of the CAT 2023 Syllabus in order to help candidates understand the importance of each topic of the Quantitative Aptitude syllabus and practise well.

CAT Syllabus 2023 Quants Section	Number of questions asked
Linear Equations; Quadratic Equations Complex Numbers	1-2 Questions
LCM and HCF	1-2 Questions
Permutation and Combination	1-2 Questions
Logarithm; Progressions	1-2 Questions
Interest (Simple and Compound)	1-2 Questions
Geometry/Mensuration	1-2 Questions

Probability Functions	1-2 Questions
Algebra	1-2 Questions
Coordinate Geometry	1-2 Questions
Speed, Time and Distance; Time and Work	1-2 Questions
Number System	1-2 Questions
Surds and Indices; Inequalities	1-2 Questions
Venn diagrams and other topics	1-2 Questions
Trigonometry	1-2 Questions
Set Theory; Mixtures and Alligations	1-2 Questions
Percentages, Profit, and Loss	1-2 Questions
Binomial Theorem	1-2 Questions
Averages; Ratio & Proportion	1-2 Questions
