

KLUEEE 2023 Question Paper for Chemistry

Chemistry

Q51. Which force is responsible for the stacking of the α -helix structure of a protein? hydrogen (1h, 2h,3h) is _____

- A. H-bond
- B. Ionic bond
- C. Covalent bond
- D. Van der Waals forces

Q52. The gas evolved due to anaerobic degradation of vegetation causes:

- A. Global warming and cancer
- B. Acid rain
- C. Ozone hole
- D. Metal corrosion

....
....
....
....
....

Q75. Identify the major product:
