

Section-wise JEE Main Paper Analysis 2025 Session 2: Apr 04, 2025

The JEE Main session 2 day 3 (Apr 04, 2025), shift 1 was conducted from 9 AM to 12 PM. Candidates can find out about the overall difficulty level, good attempts, important topics and other important components of the paper from the table below:

Shift 1	
Overall Difficulty	Difficult
Difficulty Level of JEE Main Mathematics	Challenging
Difficulty Level of JEE Main Physics	Moderate
Difficulty Level of JEE Main Chemistry	Easy to Moderate
No. of Good Attempts	To be updated

Important Topics	Mathematics: Many questions were lengthy and tricky
	Chemistry: Chemical bonding, biomolecules, GOC, thermodynamics, coordination compounds, CFT, electrochemistry, hydrocarbons, chemical kinetics
	Physics: Modern Physics (3 questions), Semiconductors, current electricity, magnetic field, mechanics, rotation, electrostatics, fluid mechanics, osmotic pressure, ray optics,
