# **QUESTION BOOKLET**

Question Booklet Number:

INSTRUCTIONS

Roll Number:							

Seat Number					

Please read the following instructions carefully:

1) In the OMR Answer booklet clearly write your name in the Candidate name field as per ADMIT CARD.

Clearly write and circle your Roll Number, Seat Number as per ADMIT CARD. Clearly write and circle your Question Booklet Number, Question Booklet Series as mentioned in the QUESTION BOOKLET.

2) Strictly follow the instructions given by the Centre Supervisor / Room invigilator and those given on the Question Booklet.

# 3) Please mark the right responses with a pencil.

- 4) Candidates are not allowed to carry any papers, notes, books, calculators, cellular phones, scanning devices, pagers etc. to the Examination Hall. Any candidate found using, or in possession of such unauthorized material, indulging in copying or impersonation or adopting unfair means, is liable to be summarily disqualified and may be subjected to penal action.
- 5) After finishing the examination, hand over the complete question booklet, OMR Answer Sheet and admit card to the invigilator. DO NOT carry the

question booklet or any part of it, outside the examination room. Doing so, is a punishable offence.

6) The test is of objective type with each question carrying 1 mark for correct response. Each question has only one correct response. There is negative marking of 0.25 for every wrong answer.

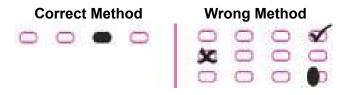

Set: 758381 A

7) This Question Booklet contains a total of 180 questions and the total time allotted is 3 hours. The written test consists of questions on Verbal ability, Quantitative ability and Analytical ability.

Verbal Skill (Part A) - 1 to 30 Verbal Skill (Part B) - 31 to 60 Quantitative Skill (Part A) - 61 to 90 Quantitative Skill (Part B) - 91 to 120 Analytical-Skill (Part A) - 121 to 150 Analytical-Skill (Part B) -151 to 180

- 8) Each objective question is followed by four responses. Your task is to choose the correct response and mark your response on the OMR Answer Sheet and NOT on the Question Booklet.
- 9) For marking response to a question, completely darken the CIRCLE so that the alphabet inside the CIRCLE is not visible. Darken ONLY ONE CIRCLE for each answer as shown in

the example below. The CORRECT and the WRONG method of darkening the CIRCLE on the OMR sheet are given below.

- 10) In view of the tight time span, do not waste your time on a question, which you find to be difficult. Attempt easier questions first and come back to the difficult questions later during the test.
- 11) DO NOT make any stray marks anywhere on the OMR answer sheet. DO NOT fold or wrinkle the OMR answer sheet and the Subjective Response Sheets.
- 12) Rough work MUST NOT be done on the OMR answer sheet. Use your test booklet for this purpose.

# Verbal Skill Part A

Directions for Questions 1-6:

Read the passage and answer the questions that follow. How Facebook is changing the way we consume news

Greg Marra's team designs the code that drives Facebook's News Feed – the stream of updates, photographs, videos and stories that users see. The 26-year-old Facebook engineer is also fast becoming one of the most influential people in the news business. Facebook now has a fifth of the world – about 1.3 billion people – logging on at least monthly. It drives up to 20 percent of traffic to news sites, according to figures from the analytics company SimpleReach. On mobile devices, the fastest-growing source of readers, the percentage is even higher, SimpleReach says.

About 30 percent of adults in the U.S. get their news on Facebook, according to a study from the Pew Research Center. Though other services, like Twitter and Google News, can also exert a large influence, Facebook is at the forefront of a fundamental change in how people consume journalism. Most readers now come to news not through the print editions of newspapers and magazines or their home pages online, but through social media and search engines driven by an algorithm, a mathematical formula that predicts what users might want to read.

It is a world of fragments, filtered by code and delivered on demand. For news organizations, said Cory Haik, senior editor for digital news at *The Washington Post*, the shift represents "the great unbundling" of journalism. "People won't type in washingtonpost.com anymore," Ms. Haik said. "It's search and social."

In an interview at Facebook's sprawling headquarters here, Mr. Marra said he does not think too much about his impact on journalism. "We try to explicitly view ourselves as not editors," he said. "We don't want to have editorial judgment over the content that's in your feed. You've made your friends, you've connected to the pages that you want to connect to and you're the best decider for the things that you care about."Mr. Marra said, "We're saying 'We think that of all the stuff you've connected yourself to, this is the stuff you'd be most interested in reading."

Roughly once a week, he and his team of about 16 adjust the complex computer code that decides what to show a user when he or she first logs on to Facebook. The code is based on "thousands and thousands" of metrics, Mr. Marra said, including what device a user is on, how many comments or likes a story has received and how long readers spend on an article. The goal is to identify what users most enjoy, and its results vary around the world. In India, he said, people tend to share what the company calls the ABCDs: astrology, Bollywood, cricket and divinity

1) According to the passage, about 30% of adults in the U.S. get their news on	7) Newton is a great scientist.
A) Twitter B) Google News C) Facebook D) None of the options	A) No Article required B) A C) The D) An
2) The ABCDs mentioned in the passage refer to	
A) Astrology, Bollywood, Cricket, Divinity B) Astrology, Bollywood, Cricket, Diversity C) Astronomy, Bollywood, Cricket, Divinity D) Astronomy, Bollywood, Cricket, Democracy	
Presently, most of the readers prefer to read news through	
A) Print editions of newspapers and magazines B) Home pages, of newspapers and magazines, online C) Social media and search engines D) All the options	
4) Why do Marra and his team adjust the complex computer code once a week?  A) It shows Marra and his team as to what Facebook users enjoy most.  B) It decides what to show a user when he/she first logs on to Facebook.  C) It displays a wide range of programs that Facebook users log on for the first time.  D) It takes stock of the likes and dislikes of Facebook users.	FMYUN
5) Choose the SYNONYM of 'fragments' as used in the passage.	
A) Pages B) Editions C) Figures D) Pieces	
6) What does Greg Marra's team do?	
A) They write about the latest current events. B) They publish Facebook's news updates. C) They design the code that drives Facebook's News Feed. D) They devise the methodology of writing codes for News Feed.

106) Find the greatest number such that when 795, 671, 523 are divided by it leaves the same remainder in each case.

- A)4
- B) 9
- C) 13
- D) 19

107) A number when divided by 259 leaves 149 as remainder. If the same number is divided by 37 then what would be the remainder?

- A) 0
- B) 1
- C) 35
- D) 36

108)What is the number in unit place of 3687^343 + 9?

- A) 1
- B) 2
- C) 7
- D) 9

rotten, increased his selling price by 15% more than the 15% he was already charging. Find the percentage profit.

- A) 5.8%
- B) 6.3%
- C) 6.8%
- D) 7.2%

116) A trader decides to sell a kilogram of sugar at its cost price. But he uses false weights and sells only 900 grams instead of a kilogram. What is the percentage of profit?

- A) 10%
- B) 11.11%
- C) 11%
- D) 10.11%

117) A's present age is 2.5 times the age of B. If after 2.5 years the ratio of their ages is 11:5, then find the present age of B?

- A) 5
- B) 10
- C) 25
- D) 40

- A bag contains Rs. 2 and Rs.10 coins in the ratio 21:34 respectively, which amounts to Rs.3438, then find the number of Rs.10 coins?
- A) 201
- B) 256
- C) 306
- D) 401
- 125) A) Gold is rare.
- B) Gold is precious.
- A) A is the cause and B is the effect.
- B) B is the cause and A is the effect.
- C) A and B are independent causes.
- 119) The ratio of the number of marbles between A and B is D) A and B are effects of independent causes. 27: 39 and that with B and C is 117:119. If C has 1071 number of marbles with him then find the total number of marbles among A, B and C?
- A) 1071
- B) 2071
- C) 2142
- D) 2853
- A told B that C is his father's nephew. D is A's cousin but neither brother nor mother of C. How is D related to C?
- A) Sister
- B) Father
- C) Mother
- D) Aunt

- Rs 66500 is distributed among A, B and C in the ratio of 9:11:15. Find the difference between the share of A and C.
- A) Rs.7600
- B) Rs.11400
- C) Rs.17100
- D) Rs.28500

- Pointing Jatin, Rashi said, "His sister is my 127) mother's only daughter". How is Rashi related to Jatin?
- A) Granddaughter
- B) Daughter
- C) Sister
- D) Mother

Directions for Questions 121-122:

Find the missing term:

121)GOLDEN: HQOHJT:: SILVER:?

- A) TLOZJW
- B) TKOJZY
- C) TLOZJX
- D) TKOZJX
- 122)PRINT: 79952:: FAULT:?
- A) 61332
- B) 61442
- C) 51332
- D) 61554

Directions for Questions 123-125:

Given below is a set of statements. Examine the statements and state the nature of relationship between them:

- 123)A) Mumbai lies on the coast.
- B) The climate in Mumbai is very humid.
- A) A is the cause and B is the effect.
- B) B is the cause and A is the effect.
- C)A and B are independent causes.
- D)A and B are effects of independent causes.
- 124)A) Earth has seasons.
- B) Earth revolves around the sun.

- A) A is the cause and B is the effect.
- B) B is the cause and A is the effect.
- C)A and B are independent causes.
- D)A and B are effects of independent causes.

as 795243, how is AFRICA coded?

A) 579845

B) 579235

C) 579145

D) 578915

129) In a certain language, if MADRAS is coded as NBESBT, how is BOMBAY coded?

A) CPNCBX C) CPOCBZ B) CPNCBZ

D) CQOCBZ

130) In a certain code SIKKIM is written as THLJJL. How is TRAINING written in that code?

A) UQBJOHOH

B) UQBHOHOF

C) UQBJOHHO

D) SQBHOHOH

Directions for Questions 131-132:

The question below is followed by two statements. Find whether the data in given statements are sufficient to answer the question and choose the correct alternative given.

131) How many mangoes does Renu eat on Thursday?

I) Renu eats 2 mangoes on the first day.

II) Everyday she eats 2 mangoes more than the previous day.

- A) Statement I alone is sufficient to answer the question.
- B) Statement II alone is sufficient to answer the question.
- C) Statement I and II are together sufficient to answer the question but neither of the statements alone is sufficient.
- D) Question cannot be answered unless more information is provided.

- 132) Akshay and Aashish are travelling from Mumbai to Pune on different motor bikes. Who reached mumbai first?
- I) On their way Akshay overtook Aashish thrice and Aashish also overtook Akshay thrice.
- II) They both started at the same time and Aashish overtook Akshay first.
- A) Statement I alone is sufficient to answer the question.
- B) Statement II alone is sufficient to answer the question.
- C) Statement I and II are together sufficient to answer the question but neither of the statements alone is sufficient.
- D) Either of the statements I and II are sufficient to answer the question independently.
- 133) Some statements are given. Choose the correct set of three statements that make a logical sequence.
- A) All painters are humorists.
- B) Some cartoonists are singers.
- C) Some cartoonists are painters.
- D) All cartoonists are humorists.
- E) Some humorists are cartoonists.
- F) Some humorists are painters.
- A) ABD
- B) ECF
- C) CDE
- D) DCF

Directions for Questions 136-138:

Read the following information and answer the questions that follow:

- L, M, N, P and Q are studying Music, Tennis, French, English and Guitar. They like different food items ie, pizza burger, ice-cream, aloochat and sandwich.
- (1) The student who likes ice-cream never study Music.
- (2) The student who studying Guitar, Likes pizza.
- (3) M studies English and P studies Music.
- (4) The student who studies French, never like aloochat.
- (5) L likes alloochat and Q likes sandwich.
- 36) Which subject does the student study who likes burger?
- A) Tennis
- B) Guitar
- C) Music
- D) French
- 137) Which of the students likes ice-cream?
- A) L
- B) M
- C) N
- D) P
- 138) Which food does the student like who studies French?
- A) Pizza
- B) Ice-cream

134)Choose the conclusion that can be drawn from the given statements.

Statements:

- I. All reds are blues.
- II. All blues are yellows.
- III. All browns are yellows.

Conclusions:

- I. Some reds are browns.
- II. Some blues are reds.
- III. Some yellows are reds.
- IV. All yellows are blues.
- A) Only I follows
- B) II and III follows
- C)I and IV follows
- D)Only II follows

C) Sandwich D) Burger

Directions for Questions 139-141:

Given below is a set of statements. Examine the statements and choose the correct alternative about conclusion:

139)Statements: Salt has bitter taste.

My medicine has bitter taste.

Conclusion:

My medicine may have salt in it.

- A) Conclusion is definitely true
- B) Conclusion is probably true.
- C) Conclusion is probably false.
- D) Data is inadequate.

140) Statements: sequence.

135) Some statements are given. Choose the correct set of three statements that make a logical

- A) Some sauces are spicy.
- B) All sauces are spicy.
- C) Some ketchups are jams.
- D) All ketchups are spicy.
- E) Some sauces may be spicy.
- F) All ketchups are sauces.

A) FBD

B) AFD

C) DBF

D) BFE

Water is a liquid.

Rice is of the colour of water.

Conclusion:

Rice is water.

- A) Conclusion is definitely true
- B) Conclusion is probably true.
- C) Conclusion is probably false.
- D) Data is inadequate.

141)Statements:

December is a winter month.

Winter months are cold.

Conclusion:

December is cold.

- A) Conclusion is definitely true
- B) Conclusion is probably true.
- C) Conclusion is probably false.
- D) Data is inadequate.

Directions for Questions 142-143:

Each of these questions are followed by two statements. Examine them and choose the correct alternative.

142) Which is heavier; 1 kg of iron or 1 kg of cotton?

- I) 1 kg of iron is heavier.
- II) Both are equal.
- A) Statement I follows.
- B) Statement II follows.
- C) Both I and II follows.
- D) None follows.
- 143) Ram is Sundari's brother and Vinod's brother–in–law. Ram is unmarried and has 2 married sisters. Vidya is Ram's Mother.
- I) Vinod may or may never be married to Sundari.
- II) Vidya is Vinod's mother-in-law.
- A) Statement I follows.
- B) Statement II follows.
- C)Both I and II follows.
- D) None follows.
- 144) A = B means A is daughter of B, A || B means A is son of B, A >> B means A is B's sibling, A << B means A is B's grandchild. Which of the following necessarily means that A is 'B's father?
- A) B << C and A = C
- B) A << C and B || C
- C)A >> C and B || C
- D) None of these options
- 145) If in a coded language, A O B means A is taller than B, A  $\triangle$  B means A is shorter than B, A  $\square$  B means A is as tall as B. Then, which of the following represents that C is the shortest in the group of C, D and E?

A) D O E; E □ C B) D ∆ C; E □ C C) D O E; E ∆ C D) D O C; E O C

D) D O C; E O C

### Set: 758381 A

Directions for Questions 146-147:

Select the pair which is similar in relation to the pair given in the question.

146) Foundation: House

A)Pen: Pencil B) Paper: Wood C) Pedestal: Statue D) Inkpot: Ink

147)Dog: Faithful

A)Lamb : Gentle B) Cow : Funny C) Goat : Mutton D) Cat : Mew

148) Rahul walks 10m towards North. He then turns left and walks 20m. He again turns left and walks 10m; Again he moves 10m after turning to his right, How far is he from his original position?

A)30m

- B) 25m
- C) 15m
- D) 10m

149) A person goes towards East 5km; then he takes a turn to south-west and goes 5 km. He again takes a turn North- West and goes 5 km. With respect to the point from where he started, where is he now?

- A) In North
- B) In West
- C) In North-South
- D) In South-West

150) Early morning after sunrise Raju was standing in front of his house in such a way, that his shadow was falling exactly behind him. He starts walking straight and walks 5m. He turns to his left and walks 3m and again turning to his left walks 2m. Now in which direction is he from his starting point?

A)South

- B) North
- C) South-west
- D) North-East

# Analytical-Skill Part B

Directions for Questions 151-153:

The question below is followed by two statements. Find whether the data in given statements are sufficient to answer the question and choose the correct alternative given.

- 151) Four friends A, B, C and D participated in a race. Who won the race?
- I) B took lesser time than A and C to finish the race.
- II) A took lesser time than C and D to finish the race.

A) Statement I alone is sufficient to answer the question.

B)Statement II alone is sufficient to answer the question.

C) Statement I and II are together sufficient to answer the question but neither of the statements alone is sufficient.

D) Either of the statements I and II are sufficient to answer the question independently.

to answer the question independently.

- 152) How many candidates out of P, Q, R, S and T have been selected in the interview?
- I) True statement: One of P, R and S have been selected.
- II) False statement: Atleast one of Q, S and T have been selected in the interview.
- A) Statement I alone is sufficient to answer the question.
- B) Statement II alone is sufficient to answer the question.
- C) Statement I and II are together sufficient to answer the question but neither of the statements alone is sufficient.

156) Some realists are practical. Socrates is a realist.
Plato is realist.

- riato is realist.
- I) Socrates may be practical.
- II) Plato is practical.
- A) Statement I follows.
- B) Statement II follows.
- C) Both I and II follows.
- D) None follows.
- D) Either of the statements I and II are sufficient to answer

the question independently.

Directions for Questions 157-159:

- 153) Ram and Lakshman are two brothers married to two sisters Urmila and Sita never in that order. Whom is Ram married to?
- I) Sita is married to Ram or Lakshman
- II) Ram is married to Urmila or Sita.
- A) Statement I alone is sufficient to answer the question.
- B) Statement II alone is sufficient to answer the question.
- C) Statement I and II are together sufficient to answer the question but neither of the statements alone is sufficient.
- D) Either of the statements I and II are sufficient to answer the question independently.

Directions for Questions 154-156:

Each of these questions are followed by two statements. Examine them and choose the correct alternative.

154) Gandhiji appreciates cleanliness and inspired others for same.

Babu is Gandhiji's follower and believe in all his principles.

- I) Babu appreciates cleanliness.
- II) Babu is inspired by Gandhiji.
- A) Statement I follows.
- B) Statement II follows.
- C)Both I and II follows.

Read the following information and answer the questions that follow:

Rekha and Ajay are the two judges at a beauty contest, selecting candidates for various international beauty pageants. Each of them is required to select a group of three candidates from a total of 7 contestants available. The 7 contestants are M, N, O, P, Q, R, and S. The groups have to be mutually exclusive. The following further restrictions apply:

- 1] If one judge selects N or Q, then the other judge has to select P or S respectively and vice versa.
