#### Instructions

Read the passage and choose the correct option to answer the guestions. Passage:

Whales are the largest animals the world has ever known. That perhaps is the origin of the idiom 'having a whale of

They are found in oceans and although they resemble huge fish, they really are mammals. One important way they differ from fish is their body temperature. They are warm blooded, so their temperature remains constant despite the surrounding climate. Extra protection is provided by the blubber, which keeps them wane even in the coldest water. Whales also differ from fish in their manner of breathing. Equipped with lungs instead of As, they are forced to hold their breath while under water. When a whale's supply of fresh air runs out, it must surface to breathe; otherwise it would drown. Another difference is the way they reproduce and rear their young ones. Babies are born alive and are

initially nursed on their mother's milk. For Centuries humans have hunted whales for profitable reasons. Some laundry soaps contain whale oil. Whale meat is eaten in Norway and Japan.

Read the passage and choose the correct option to answer the questions. Passage:

Ladakh does not have any lions. tigers or panthers. It however. has a leopard peculiar to the region. This is the snow leopard, obviously so called because the animal is usually found near the snow-line, and when seen from a distance, seems to be white or snowy. The snow leopard is sometimes called the sated cheetah.

The snow leopard as the name indicates. is essentially an inhabitant of the high snowy mountains and is found all along the snow lines of the Himalayas. But they can be seen only rarely as they are nocturnal in their habits. There has been a great diminution in their numbers in recent decades, as much from the growing scarcity of their natural prey as due to the greater availability of arms to the natives, who attack and kill the animal for its valuable fur or just for fun. The snow leopard preys heavily on the innocent fellow denizens of the Himalayan heights: bharaL of whom it is especially fond, shapo, ibex and marmot. This has made the animal whose appearance disturbs the animals in a locality for days together.

# **Question 170**
