

JEE Main Session 1 Shift 2 Paper Analysis (30 January 2025)

JEE Main Shift 2 Paper Analysis 30 January 2025: NTA conducted the second shift of the JEE Main Session 1 Exam 2025 on **January 30, 2025**. Therefore, candidates who want to know the detailed [JEE Main](#) Today's Shift 2 Paper Analysis 30 January 2025 can check here.

The details, such as the difficulty level of each section, the lengthiest section, important topics, and many more, will be updated here. The JEE Main Paper Analysis 30 January 2025 Session will explore the difficulty level and topic-wise question distribution. The exam includes questions from Physics, Chemistry, and Mathematics. Based on student feedback and expert analysis, here is a detailed breakdown of the exam. [JEE Main 2025 Session 1](#)

JEE Main Today's Shift 2 Paper Analysis 30 January 2025

Here, all the interested students can check the JEE Main Shift 2 Paper Analysis 30 January 2025 below:

JEE Main Paper Analysis 30 January 2025 Session 1: Physics

Detailed analysis of the JEE Main 30 January Shift 2 Physics paper has been provided below:

Particulars	Details
-------------	---------

Difficulty Level	Moderate
Topics Asked	Lens, logic gate, Ray optic, electrostatic, semiconductor, projectile motion, units and dimensions, kinematics, Fluid, Gravitation
Was Physics Section Lengthy?	Yes

JEE Main Day 1 Shift 2 Unofficial Paper Analysis 2025: Chemistry

Check the JEE Main Session 1 Day 1 Shift 2 Paper Analysis 2025 for the Chemistry section in the table given below:

Particulars	Details
Difficulty Level	Easy to Moderate (Mixed Reaction)
Topics Asked	Dipole moment, Electrochemistry, Biomolecules, Chemical bonding, Coordination compound, Ionic Equilibrium, P Block, Thermodynamics
Was the Chemistry Section Lengthy?	NO

JEE Main January 30 Shift 2 Paper Analysis 2025 Session 1: Mathematics

In the table below, refer to the detailed JEE Main Today's Shift 2 Paper Analysis 30 January 2025 for Mathematics:

Particulars	Details
Difficulty Level	Moderate
Topics Asked	Lens, logic gate, Ray optic, electrostatic, semiconductor, projectile motion, units and dimensions, kinematics, Fluid, Gravitation
Was the Maths Section Lengthy?	No

JEE Main Session 1 January 30 Paper Analysis 2025: Student Reviews

Candidates who want to know the reactions of the candidates who appeared for the shift two examinations can check here once it is available:

- As per the initial review, chemistry was comparatively easier than Physics and Maths.
- The Physics Section was Moderate but doable.
- In the 30 Jan Shift 2 there were more questions from the 12th Class than 11th Class.
- In Physics there were 4-5 question on formula based where as the rest were conceptual based question.

Even before the [JEE Main 2025 answer key](#) is out, students can evaluate their performance based on the paper analysis as well as anticipate what to expect from the upcoming papers.
