# NID DAT Prelims 2024 Information Design Paper

1. They gave 8 steps pertaining to polling in the elections. In 5 frames, draw 5 visuals that explain the voting process on election day.

2. Draw 2 fruits out of pineapple, coconut, custard apple, and one more. Draw the whole fruit and then the cross section and label the parts.

3. They gave 4 styles of icons and asked to circle one. Then they gave a small list of items, bicycle, dslr camera, trash can and a few more. They asked to draw in the style of the circled thing.

4. They showed a venn diagram with three intersecting circles and asked to caption all the sections and intersections of the venn diagram so that their relationship is as depicted by the venn diagram. Then they asked to write a story showcasing the items and their relationships.

5. Think of two issues that food delivery apps fail to address and draw storyboards depicting them. Then, design a new app that addresses these issues.

6. A simple circuit diagram was given. The circuit diagram was drawn using scientific symbols,. They said to remove the abstraction so that the drawing could be easily understood by laymen who are not familiar with scientific notation.
