SOCIAL SCIENCE (087)
CLASS-X (2025-26)

Time Allowed: 3hrs

Max. Marks:80

SECTION A HISTORY (20 marks)		
1	1- A-4, B-1, C-2, D-3	1
2	B- Bal Gangadhar Tilak V.I candidates – B - To return to Council Politics	1
3	A - Widespread poverty and deadly diseases	1
4	B - Absolutist institutions like monarchy and church	1
5A.	1. Chinese pottery, textiles and spices from India and Southeast Asia also travelled the same route. In return, precious metals - gold and silver - flowed from Europe to Asia. 2. Trade and cultural exchange went hand in hand. Buddhism from India spread in several directions through intersecting points on the silk routes. 3. Early Christian missionaries travelled this route to reach Asia and Muslim preachers took the same route a few centuries later. (Any 2 points)	2
OR		
5B.	1. Sometimes new crops like potatoes could make the difference between life and death. It was with the introduction of the humble potato that Europe's poor began to eat well, eat better and live longer. 2. Ireland's poor peasants became so dependent on potatoes that when the potato crop was destroyed by disease in the mid-1840s, hundreds of thousands of peasants died of starvation	
6A.	1. Figure or Image – The identity of India came to be visually associated with the image of Bharat Mata. This image was created by Bankim Chandra Chattopadhyay. Rabindranath Tagore painted his famous image of Bharat Mata. In this painting, Bharat Mata is portrayed as an ascetic figure; she is calm, composed, divine and spiritual. 2. Songs – Bankim Chandra Chattopadhyay wrote 'VandeMataram' as a hymn to the motherland. It was included in his novel Anandmath and widely sung during the Swadeshi Movement in Bengal. 3. Folklore – Indian folklore was revived. In late-nineteenth-century India, nationalists began recording folk tales sung by bards and they toured villages to gather folk songs and legends. These tales gave a true picture of traditional culture. It helped to restore a sense of pride in our past. In Bengal, Rabindranath Tagore himself began collecting ballads, nursery rhymes and myths, and led the movement	3

	<p>for folk revival. In Madras, Natesa Sastri published a massive four-volume collection of Tamil folk tales, <i>The Folklore of Southern India</i>.</p> <p>4.– Flag (A). During the Swadeshi movement in Bengal, a tricolour flag (red, green and yellow) was designed. It had eight lotuses representing eight provinces of British India, and a crescent moon, representing Hindus and Muslims.</p> <p>(B). By 1921, Gandhiji had designed the Swaraj flag. It was again a tricolour (red, green and white) and had a spinning wheel in the centre, representing the Gandhian ideal of self-help. Carrying the flag, holding it aloft, during marches became a symbol of defiance.</p> <p>5. Re – interpretation of History – Indians began looking into the past to discover India’s great achievements. They wrote about art and architecture, Science and Maths, religion and culture, law, philosophy etc. Indians were asked to take pride in India’s great achievements in the past and struggle to change the miserable conditions of life under British rule. (Any three points to be considered)</p>	
	OR	
6B.	<ol style="list-style-type: none"> 1. Salt became an effective tool of resistance against colonialism because of the following reasons: Gandhiji found in salt a powerful bond that would unite the nations as it – was consumed by all rich and poor alike. 2. Gandhiji’s letter to Viceroy Irwin stated eleven demands. Most of them were of general interest but the most stirring was to abolish the salt tax imposed by the colonial government. 3. Irwin’s unwillingness to negotiate forced Gandhiji to start his salt March which was joined by thousands. It developed the feeling of nationalism. 4. People in different parts of the country broke salt law and manufactured salt and demonstrated in front of government salt factories. 5. People unitedly followed Gandhiji’s words. They refused to pay taxes, revenues, picketed liquor shops, boycotted foreign clothes, resigned from government jobs and violated forest laws. (Any three points to be considered)] 	
7A.	<ol style="list-style-type: none"> 1. In Britain the formation of the nation-state was not the result of a sudden upheaval or revolution. The primary identities of the people who inhabited the British Isles were ethnic ones - such as English, Welsh, Scot or Irish. 2. The Act of Union (1707) between England and Scotland resulted in the formation of the 'United Kingdom of Great Britain' meant that England was able to impose its influence on Scotland. Scotland's distinctive culture and political institutions were systematically suppressed. 3. The Scottish Highlanders were forbidden to speak their Gaelic language or wear their national dress and large numbers were forcibly driven out of their homeland. 4. The English helped the Protestants of Ireland to establish their dominance over a largely Catholic country. Catholic revolts against British dominance were suppressed. Ireland was forcibly incorporated into the United Kingdom in 1801. 5. The symbols of the new Britain - the British flag, the national anthem, the English language were actively promoted and the older nations survived only as subordinate partners in this union. 	5
	OR	

7B	<ol style="list-style-type: none"> 1. The Bourbon dynasty, which had been deposed during the French Revolution, was restored to power, and France lost the territories it had annexed under Napoleon. 2. A series of states were set up on the boundaries of France to prevent French expansion in future. Thus the kingdom of the Netherlands, which included Belgium, was set up in the north and Genoa was added to Piedmont in the south. 3. Prussia was given important new territories on its western frontiers, while Austria was given control of northern Italy. 4. The German confederation of 39 states that had been set up by Napoleon was left untouched. In the east, Russia was given part of Poland while Prussia was given a portion of Saxony. 5. The main intention was to restore the monarchies that had been overthrown by Napoleon, and create a new conservative order in Europe. 	
8.	<p>8.1 Krishnaji wanted to publish significant information about societal developments in the areas of politics, science, and other fields in order to inform the public.</p> <p>8.2 The media used to criticise and analyse government policies were local newspapers and political organisations. As a result, both of these served as the government's opposition.</p> <p>8.3 Reasons for popularity of newspapers during 19th century are:</p> <ol style="list-style-type: none"> i. The political developments in the country began to interest a sizable portion of society, and this information was skillfully presented in the newspapers. ii. Newspapers started to serve as a source for societal advancements in social, cultural, and scientific 	(1+1+2=4)
9.	<p>Marked on the map. (Answers to the questions for the V.I candidates are also the same-though only naming of the locations is required.)</p>	(1+1=2)
SECTION B GEOGRAPHY (20 marks)		
10.	C - echnological development and institutional changes.	1
11.	D - Black soil & Laterite soil.	1
12.	A. Reduction in the prey species leading to the tiger's dwindling food supp	1
13.	A - These states have a significant portion of forests managed as reserved or protected forests for conservation.	1
14.	D – Tamil Nadu	1
15.	B - To provide better irrigation systems and sustainable water conservation practices for farmers.	1
16.	<p>Climate and Irrigation:</p> <ul style="list-style-type: none"> ● Haryana and Punjab have a well-developed irrigation system (e.g., canal irrigation from the Sutlej-Yamuna Link Canal), which allows for large-scale 	2

	<p>commercial cultivation of rice. The climate is suitable for high-yielding varieties, and irrigation ensures water availability.</p> <ul style="list-style-type: none"> ● In contrast, Odisha has a more monsoonal climate, and while rice is grown, the farming is often rainfed and primarily for local consumption. The lack of large-scale irrigation systems limits its commercialization. <p>Economic Factors (Market Access):</p> <ul style="list-style-type: none"> ● In Punjab and Haryana, rice is grown for commercial purposes to meet national and international demand. The proximity to markets, government procurement systems, and well-developed transport networks enable these states to export surplus rice. ● In Odisha, rice is mostly grown for personal or local use, with less access to large markets for profit-driven farming, making it a subsistence crop. <p>Farming Practices:</p> <ul style="list-style-type: none"> ● In Punjab and Haryana, the use of modern farming techniques, machinery, and high-yielding varieties supports commercial rice cultivation. ● In Odisha, rice farming is more traditional and focused on family sustenance rather than large-scale production, which reflects the subsistence nature of cultivation. <p>Or any other relevant point(s) (Any 2 point to be considered out of which at least one should be related to climate and one economic)</p>	
<p>17A.</p>	<ol style="list-style-type: none"> 1. Odisha was the largest bauxite producing state in India in 2016-17. Panchpatmali deposits in Koraput district are the most important bauxite deposits in the state. 2. Aluminium is an important metal because it combines the strength of metals such as iron, 3. It is a good alternative to other metals due to its extreme lightness and 4. also has good conductivity and 5. great malleability (any other relevant point - 5 points) 	<p>5</p>
<p>OR</p>		
<p>17B.</p>	<p>Significance:</p> <ul style="list-style-type: none"> -It is used for power generation, -To supply energy to industry as well as for domestic needs. -India is highly dependent on coal for meeting its commercial energy requirements.e.g., in metallurgy - any other relevant point (at least 2) <p>Variety of coal types-</p> <p>Coal, is found in a variety of forms depending on the degrees of compression and the depth and time of burial.</p>	

	<p>1. Peat - Decaying plants in swamps produce peat. Which has a low carbon and high moisture contents and low heating capacity.</p> <p>2. Lignite - is a low grade brown coal, which is soft with high moisture content. The principal lignite reserves are in Neyveli in Tamil Nadu and are used for generation of electricity.</p> <p>3. Bituminous coal-Coal that has been buried deep and subjected to increased temperatures. It is the most popular coal in commercial use. Metallurgical coal is high grade bituminous coal which has a special value for smelting iron in blast furnaces.</p> <p>4. Anthracite -is the highest quality hard coal.</p>	
18.	<p>18.1 Due to intensive material production and consumption.</p> <p>18.2 Manufacturing industries are a major cause for-</p> <p>1) air pollution – Smoke is emitted by chemical and paper factories, brick kilns, refineries and smelting plants, and burning of fossil fuels in big and small factories that ignore pollution norms. Toxic gas leaks can be very hazardous with long-term effects.</p> <p>2) Water pollution is caused by organic and inorganic industrial wastes and effluents discharged into rivers. The main culprits in this regard are paper, pulp, chemical, textile and dyeing, petroleum refineries, tanneries and electroplating industries that let out dyes, detergents, acids, salts and heavy metals like lead and mercury pesticides, fertilisers, synthetic chemicals with carbon, plastics and rubber, etc. into the water bodies.</p> <p>3) Thermal pollution of water occurs when hot water from factories and thermal plants is drained into rivers and ponds before cooling.</p> <p>4) Dumping of wastes specially glass, harmful chemicals, industrial effluents, packaging, salts and garbage renders the soil useless.</p> <p>5) Rain water percolates to the soil carrying the pollutants to the ground and the ground water also gets contaminated.</p> <p>6) Industrial and construction activities, machinery, factory equipment, generators, saws and pneumatic and electric drills also make a lot of noise. (Or any other relevant point) – Any two points</p> <p>18.3 Poor people, cannot afford to protect themselves from the negative impacts of pollution, end up suffering the most. This also leads to social disparity/inequality due to the ill effects of poverty. (Can be explained with the help of an example)</p>	(1+2+ 1=4)
19.	<p>Marked on the map. (Answers to the questions for the V.I candidates are also the same-though only naming of the locations is required.)</p>	(1+2= 3)
<p>SECTION C POLITICAL SCIENCE (20 marks)</p>		
20.	B- III and IV	1
21.	A – Coalition Government. V.I candidates – D. II and III	1

22.	B - No, because Currency is a subject of Union List	1
23.	A - Both A and R are true, and R is the correct explanation of A.	1
24.	<p>Features of federalism:</p> <ol style="list-style-type: none"> 1. There are two or more levels (or tiers) of government. 2. Different tiers of government govern the same citizens, but each tier has its own jurisdiction in specific matters of legislation, taxation and administration. 3. The jurisdictions of the respective levels or tiers of government are specified in the constitution. So the existence and authority of each tier of government is constitutionally guaranteed. 4. The fundamental provisions of the constitution cannot be unilaterally changed by one level of government. Such changes require the consent of both the levels of government. 5. Courts have the power to interpret the constitution and the powers of different levels of government. The highest court acts as an umpire if disputes arise between different levels of government in the exercise of their respective powers. 6. Sources of revenue for each level of government are clearly specified to ensure its financial autonomy. 7. The federal system thus has dual objectives: to safeguard and promote unity of the country, while at the same time accommodate regional diversity. Therefore, two aspects are crucial for the institutions and practice of federalism. Governments at different levels should agree to some rules of power sharing. They should also trust that each would abide by its part of the agreement. An ideal federal system has both aspects: mutual trust and agreement to live together. <p style="text-align: right;">(Any two point to be considered)</p>	2
25.	<ol style="list-style-type: none"> 1. Education – Literacy rate among women is only 54% as compared with 76% among men. Parents prefer to spend their resources for their sons’ education rather than daughters. 2. Low Proportion of women in highly paid and valued jobs – Women still have a small share in the highly paid jobs. Even if a woman works for more hours than a man, her work is not given importance. This results in low paid and low valued jobs for women. 3. Women are paid less than men – Despite the Equal Wages of Act women are paid less than men, even when both do exactly the same work. 4. Preference for Son – In many parts of India parents prefer to have sons and find ways to have the girl child aborted before she is born. This has led to decline in child sex – ratio (927) 5. Exploitation at workplace and domestic violence – Women are exploited and harassed at the workplace. They have to face different forms of domestic violence at home. <p style="text-align: right;">(Any 2 point to be considered)</p>	2

<p>26.</p>	<p>1. Democracies accommodate various social divisions. For example, Belgium has peacefully solved her ethnic problems and solved the differences.</p> <p>2. All democracies usually develop a procedure to conduct competition, i.e. conduct elections, power-sharing, etc. This reduces the possibility of tensions, due to social divisions, turning violent or explosive.</p> <p>3. Democracy teaches people to respect the differences and resolve conflicts among different groups peacefully. In non-democratic countries, rulers either turn a blind eye to or suppress internal differences. For example, Sri Lanka. The plus point in democratic regime is the ability to handle social differences, divisions and conflicts.</p> <p>4. A democracy is not just a rule by majority opinion. The majority always needs to work with the minority so that the government represents the general view.</p> <p>5. A democratic government ensures that the rule by the majority does not become autocratic in terms of religion, race or linguistic group etc. It tries to show that in every election, different persons and groups can form a majority. It tries to see that every citizen has a chance to be in majority at some point of time and is not barred on the basis of birth. All these things ensured by a democratic regime lead to a peaceful and harmonious life. (Any three points to be considered)</p>	<p>3</p>
<p>27A</p>	<p>Political parties play a significant role in the effective working of a democracy. To fill political offices and exercise political power, political parties are needed to perform a series of functions, which are the following</p> <ol style="list-style-type: none"> 1. Parties contest elections. Elections are fought mainly among candidates put up by political parties. In India, top party leaders choose candidates for contesting elections. 2. Parties put forward different policies and programmes. Political parties in a democracy group together similar opinions, to provide a direction in which government policies can be formulated. 3. Parties make laws for a country. Laws are debated and passed in the legislature. 4. Parties that lose elections play the role of the opposition. Opposition parties voice their views by criticizing the government for its failure or wrong policies. 5. Parties shape public opinion. They raise and highlight issues and resolve people's problems. Many pressure groups are the extensions of political parties. 6. Parties provide people access to government machinery and welfare schemes. For an ordinary citizen it is easier to approach a local party leader than a government officer. (Any 5 points) 	<p>5</p>
<p>OR</p>		
<p>27B</p>	<ol style="list-style-type: none"> 1. Most political parties do not practice open and transparent procedures for their functioning. So there are very few ways for an ordinary worker to rise to the top in a party. 2. Those who happen to be the leaders are in a position of unfair advantage as they favour people close to them or even their family members. 3. In many parties in India, we see a trend of dynastic succession. The top positions are always controlled by members of a particular family, which is unfair to other 	

	<p>members of the party, and bad for democracy.</p> <p>4. This is so because people who do not have adequate experience or popular support come to occupy positions of power.</p> <p>5. More than loyalty to party principles and policies, personal loyalty to the leader becomes more important. This tendency is seen all over the world, even in older democracies.</p>	
28.	<p>28.1-</p> <p>(a) To recognise Tamil as official language</p> <p>(b) Regional autonomy</p> <p>(c) Equality of opportunities in securing education and jobs.</p> <p>(Any one to be considered)</p> <p>28.2- The Majoritarian Government in Sri Lanka created a distrust between Tamils and Sinhala communities which resulted in civil war. As a result, thousands of people of both communities were killed and many families were forced to leave the country as refugees.</p> <p>28.3</p> <p>1. The Constitution prescribed that the number of Dutch and French Any two speaking ministers shall be equal in the central government. Some special laws require the support of majority of members from each linguistic group. Thus, no single community can make decisions unilaterally.</p> <p>2. Many powers of the central government have been given to state governments of the two regions of the country. The state governments are not subordinate to the Central Government.</p> <p>3. Brussels has a separate government in which Dutch and French have equal representation.</p> <p>4. Apart from the Central and the State Government, there is a third kind of Government. This 'community government' is elected by people belonging to one language community - Dutch, French and German - speaking - no matter where they live. This government has the power regarding cultural, educational and language - related issues. (Any two to be considered)</p>	(1+1+2=4)
	<p>SECTION D</p> <p>ECONOMICS (20 marks)</p>	
29.	A - More workers are employed than actually required	1
30.	C - It gives a basic idea of economic well-being but hides the income inequality, cost of living, or access to essential services.	1
31.	B - A factory makes shoes and uses raw materials like leather to create the product, relying on transport and retail stores to distribute the shoes.	1

32.	B – Reserve Bank of India	1
33.	A - It makes trade more complicated, as each person must have what the other person wants, limiting the pool of potential trade partners.	1
34.	D - 1-i, 2-iii, 3-ii, 4-iv	1
35.	<p>Healthcare and Public Health:</p> <ul style="list-style-type: none"> • Accessible and quality public healthcare, is fundamental for maintaining, a productive and healthy population. It reduces mortality rates, ensures the well-being of the workforce, and allows individuals to contribute meaningfully to the economy. Inadequate healthcare can result in a higher burden of disease, lower life expectancy, and economic inefficiencies. <p>Education and Skill Development:</p> <ul style="list-style-type: none"> • Public education systems are essential for providing equal learning opportunities to all citizens, regardless of socioeconomic status. A well-educated population leads to increased literacy rates, skill development, and innovation, all of which are crucial for economic growth, reducing inequality, and fostering social cohesion. <p>Sanitation and Clean Water:</p> <ul style="list-style-type: none"> • Proper sanitation and access to clean water are vital for maintaining public health and preventing diseases such as cholera and dysentery. These services significantly improve life expectancy, reduce healthcare costs, and increase productivity, especially in rural or underserved areas. <p>Infrastructure Development:</p> <ul style="list-style-type: none"> • Public infrastructure, including roads, transportation, and energy, supports the functioning of markets, businesses, and industries. It enhances connectivity, stimulates economic activities, and improves the quality of life for individuals by providing easy access to essential goods and services. <p style="text-align: right;">Or any other relevant point(s) - Any two</p>	<p>1 ½ + 1 ½ =3</p>
36.	<p>- Higher cost of borrowing from informal sources means a larger part of the earnings of the borrowers is used to repay the loan. Hence, borrowers have less income left for themselves (as we saw for Shyamal in Sonpur).</p> <p>- In certain cases, the high interest rate for borrowing can mean that the amount to be repaid is greater than the income of the borrower. -This could lead to increasing debt (as we saw for Rama in Sonpur) and debt trap.</p> <p>-Also, people who might wish to start an enterprise by borrowing may not do so because of the high cost of borrowing.</p> <p>-For these reasons, banks and cooperative societies need to lend more. This would lead to higher incomes and many people could then borrow cheaply for a variety of needs.</p> <p>-They could grow crops, do business, set up small-scale industries etc. They could set up new industries or trade in goods. Cheap and affordable credit is crucial for</p>	3

	the country's development -Or any other relevant point(s) - Any 3	
37.	<ol style="list-style-type: none"> 1. the movements of goods and services, 2. information and communication technology 3. Transportation technology 4. movement of people between countries 5. Liberalisation of foreign trade and foreign investment policy Any other relevant point (any 3 well explained)	3
38A.	<p>Working conditions of person M would have the following features:</p> <p>Regular Employment: Workers have assured, regular work with fixed terms of employment.</p> <p>Government Regulation: Enterprises are registered with the government and follow legal rules and regulations (e.g., Factories Act, Minimum Wages Act).</p> <p>Security of Employment: Workers enjoy job security with clear working hours and benefits.</p> <p>Overtime Compensation: If workers work beyond regular hours, they are paid overtime.</p> <p>Employee Benefits: Workers receive benefits like paid leave, holidays, provident fund, gratuity, and medical benefits.</p> <p>Safe Working Conditions: Employers are required to provide safe working environments (e.g., clean drinking water).</p> <p>Retirement Benefits: Workers are entitled to pensions after retirement.</p> <p>Formal Processes: The sector follows formal processes and procedures for employment.</p> <p>Working conditions of person N would have the following features:</p> <p>Irregular Employment: Jobs are low-paid and often irregular, with no guarantee of continuous work.</p> <p>Lack of Government Regulation: The sector operates largely outside government control, with few or no legal protections.</p> <p>No Employee Benefits: Workers do not receive benefits like paid leave, overtime pay, or medical benefits.</p> <p>Job Insecurity: Employment is not secure; workers can be dismissed without notice or reason.</p> <p>Seasonal Work: Employment is often dependent on seasons, and workers may be laid off during off-peak periods.</p> <p>Informal Jobs: Many workers are self-employed, doing small jobs like street vending or repair work.</p> <p>Dependence on Employer: Employment conditions are influenced by the employer's whims and needs.</p> <p>No Legal Protections: There is little enforcement of rules or regulations related to working conditions or benefits.</p>	5
	OR	
38B.	<p>Privatization: Positive Effects-</p> <ol style="list-style-type: none"> 1. Increased Efficiency and Productivity 	

2. Improved Quality of Services
3. Reduced Government Burden
4. Any other relevant point(s)

Privatization: Negative Effects-

1. Exclusion of Public Welfare - Profit being the only motive
2. Loss of Employment Security
3. Wide gap between rich and poor - due to inaccessibility of basic facilities
4. Lower government accountability
5. Any other relevant point(s)

(ANY 5 points to be accepted. However, at least 2 positive and 2 negative effects must be included in the response)

Map for Q. no. 9 (Section A) & Q. no. 19 (Section B)
