## COMMON P. G. ENTRANCE TEST - 2024 (CPET-2024)

Test Booklet No.:

02748

Subject Code: 22

Hall Ticket No. :

Subject : COMPUTER SCIENCE

## **TEST BOOKLET**

Time Allowed: 60 Minutes

Full Marks: 80

## : INSTRUCTIONS TO CANDIDATES :

- The Test Booklet contains 16 pages including the cover page and 80 (Question Nos. 1 to 80) multiple choice questions.
- 2. DO NOT break open the seal of the Test Booklet until the invigilator instructs to do so.
- The candidates must check discrepancy, if any (like up-printed or torn or missing pages or missing questions) in the Test Booklet immediately after breaking the seal of the Test Booklet. If detected, the invigilator may be requested to replace the same.
- 4. Candidates are required to fill up and darken the Hall Ticket No., Test Booklet Serial No. and OMR Answer Sheet Serial No. in attendance sheet carefully. Wrongly filled in OMR Answer Sheet is liable for rejection.
- 5. Each question has four choices / answers marked (A), (B), (C), (D). Candidate has to select the most appropriate choice / answer to each question and darken the oval completely against the question number provided in the OMR Answer Sheet.
- 6. Indicate only one choice / answer from the options provided by darkening the appropriate oval in the OMR Answer Sheet. More than one response to a question shall be treated as a wrong answer.
- 7. Use only Black Ball Point Pen for darkening the oval for answering.
- All the questions are compulsory and they carry equal marks. The total marks scored by a candidate
  depends on the number of correct choices / answers darkened in the OMR Answer Sheet. There will
  be no negative marking for wrong answers.
- 9. No candidate shall be allowed to leave the Examination Hall / Room till all OMR Answer Sheets have been collected by the invigilator.
- 10. On completion of the entrance test, the original OMR Answer Sheet be handed over to the invigilator. Candidates are allowed to take the second copy of the OMR Answer Sheet along with the used Test Booklet for reference.
- 11. Candidates are not allowed to carry any personal belongings including electronic devices such as scientific calculator, cell phones, headphones, earbuds, or any other type of devices that allow communication of any kind inside the Examination Room / Hall.
- 12. The candidates are advised not to scribble or make any mark on the OMR Answer Sheet except marking the answers at the appropriate places and filling up the details required. Rough work, if any, may be done in the blank sheet(s) provided at the end of the Test Booklet.
- Any malpractice / use of unfair means will lead to your disqualification from the entrance test / admission process and may also lead to appropriate legal action as deemed fit.

DO NOT OPEN THIS TEST BOOKLET UNTIL YOU ARE ASKED TO DO SO

GO - 28/13

(Turn over)

91100 - 92748

GO – 28/13 (2) (Continued)

```
1.
    What does the following C code display?
    #include<stdio.h>
    int main()
    {
         int p1 = 1, p2 = 2, p3, i = 3;
         printf("%d\t%d", p1, p2);
         while(i < = 5)
         {
             p3 = p1 + p2;
              printf("\t%d", p3);
             p1 = p2; p2 = p3; i = i + 1;
         }
         return 0;
    }
                                               12358
    (A)
         01123
                                           (B)
    (C) 12345

	(A) 25, 30, 40, 75, 90, 80, 60, 55	(B) 40, 30, 25, 75, 90, 80, 60, 55
	(C) 90, 80, 75, 60, 55, 40, 30, 25	(D) 55, 25, 30, 40, 60, 80, 75, 90
19.	What is the maximum number of key with a height of 2?	values that can be stored in a B-tree of order 4
	(A) 47	(B) 96
	(C) 63	(D) 60
20.	What is the overall time complexity of	heap sort?
	(A) O(log n)	(B) O(n log n)
	(C) O(n + log n)	(D) O(n <sup>2</sup> )
21.	How can the page fault frequency in v	rirtual memory be reduced?
	(A) By allocating less number of pa	ges per process
	(B) By reducing the page size	e ni od ož tiles ertod (saus ni un
	(C) By using a working set model	et a place behinding the
	(D) By increasing the frame size	(Cital Check-combing state)
22.		faults for the page reference string: 1, 2, 3, 4, 6 using the LRU replacement technique with 5
	(A) 8	(B) 7
nid.	.(C) 6	(D) 5
23.	Which of the following scheduler is ca	illed most frequently?
	(A) Short-term scheduler	(B) Medium-term scheduler
	(C) Job scheduler	(D) I/O scheduler

24.	2 ms. What will be the average waiting time using Round-Robin scheduling with a time quantum of 2 ms?				
	(A)	5.66	(B)	6.33	
	(C)	19	(D)	5.0	
25.		uation where a set of processes r processes belonging to the sa		waiting for some resources held by erred to as :	
	(A)	Mutual exclusion	(B)	Critical section	
	(C)	Deadlock	(D)	Thrashing	
26.	The	number of tuples in a relational	table indicate	es the : 04 08 88 (A)	
	(A)	Degree of the relation		Cardinality of the relation	
	(C)	Domain of the relation	(D)	Arity of the relation	
27.	A rel	ation R is said to be in	_ if and only	if every determinant is a candidate	
	(A)	2 NF 00 (G)	(B)	3 NF 88 (0)	
	(C)	BCNF	(D)	4 NF water entre tento · oc	
28.	An a	association between two attribu	ites of the sa	ame relational table is known as :	
	(A)	Functional dependency	(B)	Transitive dependency	
	(C)	Multi-valued dependency	(D)	Join dependency	
29.		e executing a database transacti ransaction is said to be in a :	on, when the	final statement has been executed,	
	(A)	Committed state	(B)	Partially committed state	
	(C)	Check-pointing state	(D)	Final state	
30.		e lock-based concurrency contro		shrinking phase refers to the phase	
	(A)	Locks are requested	(B)	Transactions wait for locks	
	(C)	All locks are released	(D)	Locks are granted	
31.		p : Mohan is rich, q : Mohan is an is not happy can be written a		the statement : Mohan is rich, but	
	(A)	(B) Medium-terms p A q	(B)	pvq sice method8 (A)

	(D)	Class Employee imports D	epartment{}	other charter of the sides and code.				
41.		ch of the following device de rce to the destination networ		imal path for data to travel from the				
	(A)	Modem	(B)	Repeater				
neld	(C)	Switch	(D)	Router				
42.	A method of data transmission that breaks data into small packets and sends them independently is known as :							
	(A)	Circuit switching	(B)	Packet switching				
	(C)	Multiplexing	(D)	Packet forwarding				
43.	The purpose of "Stop and Wait ARQ" is to:							
	(A) Increase the speed of data transmission							
	(B)	(B) Use minimum network bandwidth						
	(C)	(C) Ensure reliable delivery of data frames						
	(D)	Detect error in data being	transmitted					
44.	Inw	hich of the following channel	lization protocol	synchronization is required?				
	(A)	FDMA	(B)	TDMA				
	(C)	CDMA	(D)	CSMA				
45.	IPve	6 has an address space of:		Cammon and				
	(A)	2 <sup>128</sup>	(B)	2 <sup>64</sup>				
	(C)	2 <sup>32</sup>	(D)	2 <sup>256</sup>				
46.	The	process of repositioning an	object along a c	ircular path is called :				
	(A)	Translation	(B)	Scaling				
	(C)	Rotation	(D)	Reflection				
GO	-28/	13	(10)	(Continued)				

47.	Whi	ich of the following algorithm is used	to fill the	interior of a polygon?
	(A)	Flood fill algorithm	(B)	Boundary fill algorithm
	(C)	Scan line polygon fill algorithm	(D)	Shear transformation algorithm
48.		phase of determining the appropriate ect is called as:	te pixels f	or representing images or graphics
	(A)	Transformation	(B)	Translation
	(C)	Scaling	(D)	Rasterization
49.	Bre	senham's algorithm is used to:		
	(A)	Generate a line	(B)	Generate a square
	(C)	Generate an ellipse	(D)	Generate a rectangle
50.	Ifa	'3 × 3' matrix shears in the X direction	n, how n	nany elements of it are '1'?
	(A)	3	(B)	6
	(C)	9	(D)	1
51.	Wh	at is the use of HTML <iframe> elem</iframe>	ent?	
	(A)	To display images	(B)	To embed external web content
	(C)	To embed audio files	(D)	To embed image files
52.	Wh	at is the correct order of the CSS bo	x model	?
	(A)	Padding, Border, Width, Height		
	(B)	Padding, Margin, Content, Border		
	(C)	Margin, Padding, Border, Content		
	(D)	Border, Margin, Height, Width		
53.	Wh	at is the correct way to link an exterr	nal CSS f	ile to an HTML document?
	(A)	<pre><li>link rel="stylesheet" href="styles.</li></pre>	css">	Doministra de de Life Alb.
	(B)	<li><li>k&gt;styles.css</li></li>		他们们来说"阿尔克·马克·西克斯克克克克克"。 第一

		uence of expected events?				100		
	(A)	Frames	(	(B)	Production rules			
	(C)	Semantic nets	(	D)	Scripts			
65.	Baye	esian probabilistic reasoning	is suitable t	for d	lealing with :			
edi	(A)	Inconsistencies	(	B)	Uncertainties			
	(C)	Determinism,	. (	D)	Adaptability	deve		
66.	Whi	ch of the following cannot be a	dopted to s	solve	e recurrence relations?			
	(A)	Substitution method	(	B)	Recursion tree method			
	(C)	Elimination method	gone O mr (	D)	Master method	75. VVN		
67.	Which of the following method is not suitable for collision resolution?							
	(A)	Linear probing	(	B)	Non-linear probing			
	(C)	Quadratic probing	()	D)	Double hashing			
68.	Thef	The fractional knapsack problem can be solved by:						
	(A)	Recursive approach	(1	3)	Iterative approach			
	(C)	Greedy approach	(1	D)	Dynamic programming			
69.	The	main use of dynamic program	ming is to s	olve	: : : : : : : : : : : : : : : : : : :			
	(A)	Searching problems	(E	3)	Optimization problems			
	(C)	Uncertainties	])	0)	Recurrence relations			
GO-	- 28/1	3).	(13)		(То	um over)		

70.	Whi	ch of the following is capable of han	dling gra	phs with negative edge weights?
	(A)	Prim's algorithm	(B)	Kruskal's algorithm
	(C)	Bellman-Ford algorithm	(D)	Dijkstra algorithm
71.	Wha	at is the full form of the abbreviation	OLAP?	one in a companie of alleging the second
	(A)	On-line Analysis and Processing	(B)	On-line Analytical Product
	(C)	On-line Analytical Processing	(D)	On-line Access Permission
72.	Wha	at is the objective of FP-tree algorith	m?	even entendamine of 120
	(A)	To search an item in a tree data str	ucture	
	(B)	To find frequent patterns in large da	atabases	
	(C)	To find the shortest path between t	wo node	S
	(D)	To traverse a tree in a systematic r	manner	
73.	Whi	ch of the following is a non-impact p	rinter?	
	(A)	Dot matrix printer	(B)	Line printer
	(C)	Laser printer	(D)	Daisy wheel printer
74.		ch memory acts as a buffer between performance?	en RAM	and CPU in order to speed up the
	(A)	Buffer memory	(B)	Auxiliary memory
	(C)	Cache memory	(D)	ROM
75.	Whi	ch is not a valid storage class in C p	rogrami	ming?
	(A)	extern	(B)	auto
	(C)	register	(D)	dynamic
76.	Whi	ich of the following is not a data type	in Pytho	on programming?
	(A)	dict	(B)	class
	(C)	list	(D)	tuple
77.	Wha	at is the output of the following Pytho	on code ?	Miles angle (A)
	b=	"Examination"		
	prin	t(b[2:5])		
	(A)	xami	(B)	amined transferoet (A)
	(C)	amin de la	(D)	xamin estationes (0)
GO	-28/	113 (14	4)	(Continued)

78.	Wha	at is the full form of the abbreviation H	ITP?	the second of the second of the second
	(A)	Hypertext Transmission Protocol	(B)	Hypertext Transaction Protocol
	(C)	Hypertext Transfer Protocol	(D)	Hypertext Test Protocol
79.	Wha	at is PHP?		
	(A)	Operating system	(B)	Server side scripting language
	(C)	Browser program	(D)	Database query language
80.	Whi	ch of the following is not a standard se	ervice r	nodel in cloud computing?
	(A)	SaaS	(B)	PaaS
	(C)	laaS	(D)	YaaS

## **SPACE FOR ROUGH WORK**
