Dolphins are regarded as the friendliest creatures in the sea, stories of them helping drowning sailors have been common since Roman times. The more we learn about dolphins, the more we realize that theirsociety is morecomplexthanpeoplepreviouslyimagined.Theylook afterotherdolphinswhenthey are ill, care for pregnant mothers and protect the weakest in the scientists' community, as we do. Some suggested that dolphins have a language but it is much more probable that they communicate with each other without needing words. Could any of these mammals be more intelligent than man? Certainly the most common argument in favors of man's superiority over them, is that we can kill them more easily than they can kill us istheleast satisfactory, on the contrary, the more we discover about these remarkable creatures, the lees we appear superior when we destroy them.
